EXPERIENCE

06/2023 – 05/2024

Inncrewin Technologies Pvt Ltd |Bengaluru, Software Engineer Dot Net

- Spearheaded a .NET Core microservices project consisting of 5 microservices, leveraging layered n-tier architecture and CQRS architecture. Utilized RabbitMQ for queuing and Redis for caching, enhancing scalability and performance

- Configured Xunit for unit testing and automated API endpoint testing with Postman, ensuring code quality and reliability.

- Implemented Elasticsearch for logging purposes using Serilog, ensuring robust monitoring and troubleshooting capabilities. .

- Proficiently utilized both relational (PostgreSQL) and NoSQL (MongoDB) databases to cater to diverse data requirements, demonstrating versatility in data management solutions.

- Leveraged Azure DevOps and adhered to agile Scrum methodology with bi-monthly sprints, fostering collaboration and delivering high-quality software solutions.

- Developed Azure Functions to handle user data storage before token creation, optimizing authentication processes.

- Implemented API versioning via HTTP headers, ensuring seamless compatibility and smooth transitions between API versions.

- Demonstrated expertise in integrating with various marketplaces and web cards such as Shopify, WooCommerce, LimeRoad, Fynd, Snapdeal, and Wix, facilitating seamless connectivity and data exchange.

08/2021 - 01/2022(Software Developer Intern)

01/2022 - 05/2023(Software Developer Full time)

Logibricks Technologies Pvt Ltd |Pune, <u>Software Developer Dot Net</u>

- Developed backend functionality for a project utilizing .NET 6.0 and SQL Server. Key responsibilities included database design and the creation of web APIs for an administrative portal project.

- Proficient in ASP.NET Web Forms and JavaScript for developing web applications, particularly for CRM Sales. Notable achievements include implementing functionality for barcode scanning and managing signed documents.

02/2021 - 06/2021

Smart And Swift Software's

|Baramati,Software Developer Intern

- Technology: Dot NET Framework, Bootstrap.

- Worked on Windows applications , ASP.NET Web Forms, SQL Server, HTML, CSS, JavaScript
